About me

Software Engineer specializing in Front-End development using **React, Flutter, Electron** etc... with experience building real-time dashboards, AI-driven interfaces, cross-platform mobile apps, and Electron-based desktop applications for global teams. Strong in UI/UX, data visualization, and translating complex requirements into clean, reliable product experiences.

Experience

Hitachi India Pvt. Ltd. (Randstad) - Junior Research Engineer — Sept 2023-Present

Tech Stack: ReactJS, Flutter, Firebase, JavaScript, Dart, Cordova , Electron

Web Development

- Designed interactive React dashboards with real-time data visualisations, providing overseas clients with actionable business insights.
- Built responsive user interfaces with ReactJS (Redux, Hooks, Context API) in collaboration with product managers and designers.
- Developed lightweight Electron-based desktop wrappers for internal React dashboards, enabling cross-platform deployment on Windows and macOS for client demonstrations and internal use.

Android & iOS Development

- Developed cross-platform mobile dashboards using Flutter and Dart, tailored for Android and iOS client requirements.
- Implemented Firebase authentication, cloud storage, and real-time synchronisation, boosting reliability of mobile applications.
- Packaged web dashboards into installable Android applications using Apache Cordova to support client-side testing and deployment.

Hitachi India Pvt. Ltd. - Software Engineering Intern — Feb 2023-May 2023

Tech Stack: JavaScript, React, Redux, CSS, Bootstrap, Chart.js, Fusion Charts, Plotly.js

- Developed a React-based real-time monitoring dashboard for industrial machine simulation.
- Implemented interactive data visualisations and improved application performance via Redux optimisation.
- Designed responsive UI components and supported testing, debugging, and feature enhancement.

Acadlift.com (Igni eCommerce Pvt. Ltd.) - Frontend Engineering Intern — Jun 2022 – Jul 2022

Tech Stack: ReactJS, JavaScript, HTML, CSS

- Developed reusable React components that improved scalability and reduced repetitive code across client projects.
- Adapted quickly to new frontend libraries, showing strong ability to learn and apply tools effectively.
- Earned recognition for diligence, problem-solving, and curiosity during fast-paced project development cycles.

GoPerspective Technologies LLP - Frontend Development & Analytics Intern — Sep 2021 – Oct 2021

- Designed dashboards that translated complex ML outputs into actionable insights for business decision-making.
- Processed and cleaned datasets using Python, ensuring accuracy and readiness for visual presentation.
- Built prototype UI components to represent analytics data, bridging insights with intuitive user experience.
- Adapted to both analytics and frontend tasks, demonstrating flexibility and interdisciplinary contribution.

iSchoolConnect Technologies Pvt. Ltd. - Frontend & Analytics Intern — Apr 2021 – May 2021

- Designed interactive UI layouts for event portals, improving user engagement and navigation experience.
- Created logos and branding assets for teams, ensuring consistent identity across multiple platforms.
- Developed templates and marketing materials for posters, banners, and videos supporting successful campaigns.

Education

B.Tech - Computer Science and Engineering	Kurukshetra University (JMIT Radaur)	**CGPA 8.43**	2019 - 2023
Higher Secondary Education	Pathfinder Global School (CBSE)		2019
Matriculation	Pathfinder Global School (CBSE)		2017

Skills

- **Front-end:** React.js, JavaScript (ES6+), HTML, CSS, Bootstrap, Tailwind, Three.js , React three fiber(R3f)
- **Cross-Platform & Desktop:** Flutter, Dart, Electron, Apache Cordova
- **Data Visualization:** Chart.js, Plotly.js, Google Maps API, Three.js
- **Backend / BaaS:** Firebase (Auth, Firestore, Realtime DB, Storage), REST APIs
- **Design:** Figma, Zeplin, Adobe XD, Photoshop, Illustrator
- **Tools:** Git, GitHub, npm, Webpack, VS Code

Certificates

- Introduction to Front-End Development **Meta** (Coursera) {View-Certificate}
- JavaScript Foundations Professional Certificate **Mozilla** (LinkedIn Learning) {View-Certificate}
- Visual Elements of User Interface Design **California Institute of the Arts** (Coursera) {View-Certificate}

Accomplishments and Contributions

- Served as Vice-President of the Youth Red Cross Society (YRCS), leading medical awareness campaigns in nearby villages and organizing multiple blood donation drives.
- Achieved first position in an Ideathon Presentation competition and secured top placements in inter-college and district-level cultural events, demonstrating leadership, creativity, and teamwork.
